# Functional Derivative

Andreas Niedens

May 25, 2020

This is my first  $x + 1$

fractions :  $\frac{2}{3}$  parentheses :  $\left(\frac{2}{3}\right)$

$x - 1$   
 $\lim_{x \rightarrow a} f(x)$

$\int \sin x \, dx = -\cos x + C$

$\int_a^b$
